Offering a Full Package of Sports and Fitness Surfaces

LEBANON, PA. October 27, 2014 – The inventor of the technology used to create recycled rubber flooring, Regupol America, will be showing its full package of sports and fitness surfaces at the Athletic Business Conference & Expo, November 13-14, 2014. Attendees will see running track, sports flooring, and turf shock padding solutions at booth #1409.

Regupol Tracks

Regupol America running tracks are extremely durable, typically maintaining their full potential for at least 20 years –even in extreme weather conditions. The materials used to build Regupol tracks enabled the world’s fastest man, Usain Bolt, to break a world running record at the World Championship in Berlin Olympic Stadium in 2009.

Regupol Sports and Fitness Flooring

Sports flooring products by Regupol America, including Aktiv, AktivLok and Kombi, have proven their toughness and resiliency by performing in installations ranging from Division 1 university training facilities to health and fitness clubs, operating 24/7/365. Regupol Aktiv is primarily used in fitness facility cardio areas, spinning rooms, warm up areas and lockers rooms. AktivPro features a waffle bottom, which provides shock absorption, drainage and wear resistance perfect for weight training environments. AktivLok is an interlocking pattern tile, designed to be easily installed and removed for a seamless fit. Regupol Kombi is manufactured to roll over concrete sub-surfaces with a consistent density, thickness and resilience for uniform ball rebound.

Regupol Turf Shock Padding

Abzorb, a prefabricated synthetic turf shock padding by Regupol America provides a sustainable product for artificial turf systems, built using a “filled system” of rubber and sand or other rubber infill compositions for density and thickness consistencies.

About Regupol America:

Regupol America LLC, American subsidiary of German-based, BSW (Berleburger Schaumstoffwerk GmbH), is a third generation company founded in 1954. Headquartered in Lebanon, PA, the inventor of recycled rubber flooring manufactures multi-purpose surfaces, underlayment and sound absorption which can be used in a variety of applications. Regupol also offers state-of-the-art track & field surfaces that provide superior traction, uniformity and comfort – and meet DIN standard and IAAF guidelines. The company uses over 115 million pounds of recycled rubber in the manufacturing process. More than 110 million square feet of product is sold each year, with distribution in over 100 countries. Made of 100% post-consumer tire rubber, post-industrial EPDM rubber and additional renewable resources, Regupol America uses the finest raw materials and state of the art manufacturing. The portfolio of products withstands the most intense use, ensuring outstanding performance. Usain Bolt, the fastest man in the world has lent his endorsement of Regupol™ tracks due to his accomplishments at the 2009 Berlin World Championships.
